

Baggeridge Level D Event  
12<sup>th</sup> June 2011

#### Organiser's Comments

Not a lot to say really – Baggeridge is such a welcoming venue for an Organiser. The Ranger staff are always happy for us to come, there are toilets and a café on site. Best of all, the hardstanding car parks mean that there are no worries about cars getting bogged down in soggy fields.

The last point was a big bonus on a day with continuous torrential rain, which I am sure you will all remember. I am really glad that so many people braved such conditions – and from comments made, seemed to have enjoyed their visit.

Thanks for supporting us and making our efforts worthwhile.

Found Property – Umbrella (Glasgow Garden Festival '88). Please email the Organiser at [rvhoc-baggeridge11@yahoo.co.uk](mailto:rvhoc-baggeridge11@yahoo.co.uk) to arrange return.

Robert Vickers

#### Planner's comments

A very interesting event for a first time planner! I hope everyone enjoyed themselves and we can agree that it was proper orienteering weather! My sincere apologies for the two controls placed on the wrong feature. I am learning on the job!

Kerstin Mitchell

#### Controller's comments

Sorry, it was my fault! First time planner Kerstin actually got it right but I could not find her tags and put my own tags out and then compounded the error by placing those two controls myself. I can only apologise and hope it did not detract from your enjoyment of the event in those very soggy conditions. Other than that I felt that Kerstin did an excellent job, the courses were just about as good as you can get at Baggeridge, having a number of route choice legs and good change in pace and direction. Thanks to you all for turning out in such awful weather.

Barry Houghton
