

## **Sandwell Valley SEE 28th August 2008 Results**

This was Adrian Bailey's event, and the courses were his planning. I only became involved as "on the night" Organiser when Adrian had to travel to Hungary for family reasons.

People seemed to enjoy Adrian's courses, and judging by the car-park discussion afterwards found them as challenging as the area allows. Amazingly, we managed to get through the event with no stolen controls (and no untoward incidents involving the strange population who are known to frequent parts of this area).

Thanks for coming, and my own special thanks to those who helped to collect in the controls.

Robert Vickers
