NOTE Adjust Control Values to suit

Note: Andy Hemsted and Mick Sadler have been awarded control 13, which was in the wrong place, too high up the re-entrant. Any other competitors who looked for this control and didn't find it should let me know if they want the extra points.

"Organiser's comments:

Thanks to everyone who came out for what turned out to be perfect weather at Callow Hill. I hope you all enjoyed yourselves, despite the fact that the course was rather tough. T

I apologise for putting number 13 in the wrong place. Please let me know if you searched for it unsuccessfully and I'll add it to your score.

Congratulations to Adrian Bailey, who went out planning to do the first seven controls (the orange course), but only got one of them. He did get six other controls instead, despite
smallest head torch! Congratulations also to Nigel Cousins who made it all the way around using the control descriptions from the last MADO mini-league event without noticing un

Thanks to the Wyre Forest Discovery Centre and the Forestry Commission for permission to use the area and the carpark.

Richard."
