'Shrawley goodness and mercy, and those that are lost, will follow me all the days of my life; and I will get stuck in the mud and brashings for ever'

Thanks for supporting the latest WEE event. With a new area, a good map, and good weather this year, everything was perfect for an enjoyable outing. I thought that it was possible for the fast lads to clear the 27 controls in the hour, and with SI this would have happened! However, Chris had to return for his dropped control-card, and so was a bit late back.

Thanks also to those who were able to have a drink or meal at the New Inn. The carpark belongs to the pub, so we need to keep them sweet !
