\*Sorry Brian: you either didn't punch the Start, or your SI-card failed to register there, so your elapsed time of 59.02 is from Number 1 to the Finish. Control 1 took everything between 49 seconds (David Williams) and 11.16 (Someone else), so I'm adding 5mins to your time. Any appeal should be made to me, accompanied by a £20 note.

It was great to have such a magnificent turnout; thanks to all that came and enjoyed the challenge of Hartlebury at night. Although there are no large blocks of pathless terrain, the intricacy of the path network and the vegetation, and the lack of distinction between path/open/dogwalkers' cut-through, go to make it very tricky.

Thanks also to Brian and Kay Hughes for the excellent map, to Robert Vickers for arranging the land permission, and to David Williams, John Leeson, Peter Langmaid and Barry Houghton for control-collecting. Everything was cleared up quickly, and I was enjoying a drink at the Rose and Crown by nine o'clock.
