Organiser's Comments

I hope you enjoyed the day as much as I did. Helpers arrived in droves and their experience and willingness shone through. The weather was kind, so much so that the top of my head is glowing still! The wind even assisted the taking down of the registration tent - many thanks to all those who rushed to help.

The new feather flags were proudly displayed and gave the event real presence and status, I thought.

My grateful thanks to George Chambers for coming to my rescue on the day - earlier in the week my car's engine had thoughtlessly destroyed itself, leaving me without a usable vehicle, since the motor caravan would not go under the height barrier. George transported me and all the equipment to Hartlebury, helped me with the road signs and the tents, manned the finish, ran the Green course, provided first aid cover, and then kindly took everything back to the equipment store that afternoon. I think 90 minutes should be subtracted from his time!

Planner's Comments

Many thanks to controller Brian for picking up on some careless mistakes and for being so willing to update parts of the map as mapper.

Thanks are also due to John and Chris Embrey, Paul Hammond and Mike Dugmore for collecting in the controls.

I hope the vandalism didn't affect anyone's enjoyment too much. It was mainly the orange course which was affected though later on we lost several complete controls. (Earlier they were just randomly redistributed).
