

BUOC/HOC Lickey Hills District and WM League Event

20th February 2005
Official and Final Results
BUOC/HOC event -Lickey Hills 20th FEB

Organisers comments- Peter Broad (BUOC)

Thanks everyone for coming to the annual BUOC/HOC event. As you may have noticed it was very well (maybe too well!) attended but thanks to everyone who came and made the event the success that it was.

Sorry to anyone who did come late and had to make do with an older map, everyone seemed to be really nice about this and didn't seem to mind (someone even took out a map that I had used a few weeks before... that was really quite crumpled, also quite muddy, and a bit ripped as my maps somehow always are)... I hope that no-one's run was seriously affected by this.

Sorry also to anyone who had trouble parking or had to park some distance from registration. With the weather as nice as it was the Lickey's were bound to have been busy, even if there was no event, but hopefully no one was too inconvenienced. Again, everyone seemed to take this very well and there were few complaints (maybe because the weather was so nice).

In spite of those apologies, almost everyone I spoke to seemed to enjoy the day and so thanks to everyone who helped.

Thanks to everyone at HOC for being very helpful throughout the event, from the very start of the planning to the clearing up on Sunday. Thanks especially to Alison, Colin and also Ruth Lockley, and to those on the finish team who helped at not a great deal of notice. Well done to everyone from BUOC for getting up at six in the morning and still being probably the biggest attendance we've had at an event all year! Thanks to Kath for her awesome planning skills, and to Frances, for also taking up some of the slack on the organising. This event seemed, for a number of reasons, to take much more time and effort organising than last year's but the result proved it extremely worthwhile.

Controllers Comments- Colin Spears (HOC)

Working with BUOC has been quite a contrast to my involvement over two years with the JK. Having seen the provisional courses before Christmas, the remaining controlling took place in the final 10 days and largely on the last Friday. This said, Kath and Frances must be congratulated on a very respectable set of courses, especially as it was their first go at planning and Kath was preparing for exams. I was pleased that they managed to fit in brown and blue courses avoiding second master maps.

Peter must also be congratulated on organising and gathering enough helpers to run the event, assisted by some HOC volunteers- pretty good for a club with six members.

I was pleased that there were so few retirements, none on the white and yellow courses. Checking the finishing times, most are exactly right but the orange and light green were rather long, it is difficult to get these short enough. I have decided to re-instate the three competitors on brown and blue who didn't find control 141. The vegetation tip was not the only one in the circle but was in the centre of the circle on the master maps. Due to the ambiguity of the description, I feel the time lost is sufficient penalty.

Planners Comments- Frances Beedie/Kath McMillan (BUOC):

Kath and I really enjoyed working with each other to plan this event. I didn't realise how much hard work it is, with the checking, taping and putting out the controls. I am really glad that we got to plan on the Lickey Hills, because being a student in Birmingham, its great that I now know the area so well and it's actually so accessible and close to home we are going to try and start using it for club training. Thank you everyone in HOC that helped us out on the day and most importantly to Colin Spears, our controller who helped us greatly.
